

5 Launch your new Registered Apprenticeship Program.

With the program registered, you are now ready to move forward to launch your apprenticeship program. The partnerships formed as you were exploring the possibilities of Registered Apprenticeship are as critical now—partner collaboration is essential to successfully launching and sustaining your apprenticeship program.

Apprenticeship in the Advanced Manufacturing industry...

Our company has embraced the model of registered apprenticeship for numerous occupations within our northeast Kentucky facility. In cooperation with the local technical center and the community and technical college system, we are offering the TRACK pathway to high school students and apprentices to our incumbent employees. We've instituted the model in some non-traditional occupations as well. We feel the registered apprenticeship model is one of the most effective and efficient means to train our next generation of employees.
