**Free OSHA  
Training**

July 8 - 11, 2013

**Monday - July 8<sup>th</sup>**

**Overview of the Kentucky OSH Program**

**8:30 - 11:30 a.m.**

The session provides information on the application of General Industry and Construction safety and health regulations in Kentucky and the activities of the Kentucky OSH Program. The Division of OSH Enforcement information includes: inspections, accident investigations, citations, penalties, and important agency policies and practices. The Division of OSH Education and Training information includes: details on free assistance to employers, including consultative services, voluntary partnership programs, and training. This course also includes details on new and upcoming regulations and policy changes.

**Injury/Illness Recordkeeping**

**1:00 - 4:00 p.m.**

This session covers the basic requirements of 29 CFR 1904 and familiarizes attendees with the OSHA 300A, 300, 301 and equivalent forms. Proper reporting of injury/illness and fatalities based on state and federal requirements will be included in the presentation.

**Tuesday - July 9<sup>th</sup>**

**Fall Protection in Construction**

**8:30 - 11:30 a.m.**

This session covers the elements of 1926.500-503 and associated industry standards. Topics include: requirement to provide a fall protection system, the description and requirements for each fall protection system, and training requirements. Attendees should leave with a basic understanding of KyOSH's requirements for working at heights on commercial construction sites. Note: This course does not cover fall protection requirements for residential construction sites.

**Hazard Communication - GHS**

**1:00 - 4:00 p.m.**

This session covers the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

**Wednesday - July 10<sup>th</sup>**

**Powered Industrial Trucks**

**8:30 - 11:30 a.m.**

This session covers the basic requirements of 1910.178. Attendees will learn about the basic aspects of powered industrial trucks (primarily fork lifts), operator training requirements, safe truck operations (including traveling & safety belts), equipment modifications, and associated hazards. This course will not provide operator certification under 1910.178(L).

**Slips, Trips and Falls**

**1:00 - 4:00 p.m.**

This session covers OSHA regulations from 1910.22 through 1910.24. Through a series of case studies the attendees will develop a list of items to use in their own workplace to immediately reduce the likelihood of injury due to slip, trip or fall. Handouts and checklists and training materials provided.

**Thursday - July 11<sup>th</sup>**

**Combustible Dust**

**8:30 - 11:30 a.m.**

This session covers potential hazards associated with Combustible Dust in the workplace. Fire and explosion due to combustible dust pose immediate and deadly risks to the health and safety of Kentucky's workforce. Attendees will learn about identifying combustible dust, understand the risks and hazards associated with dust, laboratory testing, and ways to prevent combustible dust explosions in the workplace.

**Bloodborne Pathogens**

**1:00 - 4:00 p.m.**

This session explains the measures that must be implemented to protect employees from the hazards of occupational exposure to blood and other potentially infectious materials containing bloodborne pathogens, such as hepatitis B virus, and human immunodeficiency virus. Topics of discussion include applicable definitions, infection control, engineering and work practice controls, including universal precautions, personal protective equipment, housekeeping; medical evaluations, warning signs and labels, and training of employees.
