

ELECTRONIC DATA INTERCHANGE RESOURCES

Revised: September 28, 2010

These companies can assist your efforts to comply with Kentucky's electronic data reporting requirements for workers' compensation.

This list is subject to change and does not constitute an endorsement for any of the companies listed, nor should it be considered a complete list of all companies able to provide these services. Companies are added to this list upon their request only.

The key is used to indicate the services available from each company, as follows:

D = Data Collection Agent

Carriers and self-insured employers with a small volume of workers' compensation reporting that are unable to send the reports electronically can use the services of a DCA, which keypunches the information from the paper forms and transmits it electronically. The fee for this service is to be agreed upon by the DCA and the carrier/employer. Many third-party administrators will also be able to provide this service.

S = System Consultant

Can assist you in developing an electronic data reporting system, or adding electronic data reporting capability of your existing computer system.

V = Value-added Network

Better known by the acronym VAN, these are the "electronic post offices" that make the actual electronic data interchange transmissions possible. Each agency that sends and receives electronic data must have a VAN mailbox.

<u>KEY</u>	<u>COMPANY NAME</u>	<u>PHONE</u>	<u>CONTACT</u>
V	HealthTech	(913) 764-9347	Mark Hughes
D,S,V	ISO/WcPrism Compliance Solutions	(201) 469-2375 (303) 756-5712	Alfred Faber John Rewinkel
